featuring **iPATH Silver Cloud Service**
Support Delivered on a Silver Platter™

SIMPLE! Your Business Data Is Safe in the Cloud. Get MORE for LESS!

SECURE AUTOMATED BACKUP ELIMINATES DOWNTIME

SECURE BACKUP PROTECTION...Don't let unexpected events bring your business to a dead stop. Remote data backup gives you the ability to quickly recover all or a portion of your data and promptly continue operations.

iPATH Data Backup is a cloud appliance solution that automatically connects your data via the Internet and backs it up every 15 minutes. Your business data will be protected from server failure, human error or natural disaster.

EFFICIENT DATA BACKUP...Automated cloud-based backup and recovery is a more efficient choice — less expensive, improves productivity, and offers solid reliability. Why put data protection on the back of your business when it can be free of that responsibility?

DATA BACKUP SUPPORT...iPATH's exclusive Silver Cloud Service is the difference maker for today's demanding small and medium-size business data processing. **iPath Silver Cloud Service** provides a reliable managed service few others will match. Experts to help you customize your Data Backup and Recovery infrastructure. Adaptability to your specifications. Installed to make sure everything runs smoothly. This Premium Service is standard. Nothing extra to pay.

LOWER COST, BETTER SECURITY AND EFFICIENCY...**iPATH Data Backup** delivers continuous protection of data on desktops, laptops, and servers at a significant savings to your budget and time.
